Camp 2023

# Stop Playing Games

A day in the life of a young person today can often be summed up in one phrase, "They played games." You may think we're talking about video games, and we may address that this week at camp but mainly we want to speak on the many times this simple phrase can apply to several different areas, at several different ages, in several different ways.

- For young children, they frivolously play games because they don't have a care in the world. Anything is a game to them.
- Older children like to play games in the school yard and begin to learn to play more engaging games like board games and card games.
- Teens, oftentimes, start to play a different kind of game. A game involving feelings (both nice and harsh) in their relationship with their circle of friends.

Young people today are so caught up in playing games (video or otherwise) that they never even realize that their lives can make an eternal difference! They need to realize there is a righteous and holy God who loves them more than anyone ever could. So, much so that He gave His only Son to die in their place! If they don't realize there are eternal consequences for not heeding God and His Word they are going to lose this game called life. There is not a "reset" button. There are no "extra lives." There is only one life, and it'll soon pass and only what's done for Christ, will last.

# Start Obeying God

It's time for our young people to understand that this is the prime time for them to serve God with their lives! The Bible says the days of man are threescore and ten or fourscore. (Psalm 90:10) This means humans on average live to 70 or 80 years. The problem with our lives is that the bulk of our life is dictated and decided by the decisions we make in the six short years from 13 to 18. It can't be

stressed enough how important these few years are and the how young people can either set up themselves for success or ruin the rest of their lives by the decisions they make now. The absolute best thing young people can do right now is make God number 1 in their life; Look to godly authorities to help make proper decisions; and actively obey God and His Word!

## Summer Bible Camp Can Help!

Today, there are many a pastor, missionary, pastor's wife, Christian school teacher and faithful layman serving in ministry around the world that can all point to a decision they made at Summer Bible Camp as the catalyst to their blessed and successful life of serving all mighty God. Our camp is Bible-centric in that we make the learning and memorizing of God's Word of utmost importance during the week. We still have an amazingly fun time with sports and crazy games so there is plenty of active fun, but we always bring it back to the Bible and obedience to God.

For we preach not ourselves, but Christ Jesus the Lord; and ourselves your servants for Jesus' sake.

11 Corinthians 4:5

**We Preach Christ! Not Ourselves, but Christ!**

# It's All About Him!

This year our church theme is "We Preach Christ! Not ourselves, but Christ!" So, for our camp we've decided to take the second part and make it our camp theme. "Not ourselves, but Christ!"

Society today loudly asserts to young people that everything is all about them and how they feel about things and that the world basically is to cater to them. The Bible teaches the opposite. It's not about us, it's about Jesus and His sacrifice for us! The Gospel is simply the death, burial and resurrection of Jesus Christ, showing that He conquered death and hell and offers everyone eternal life in heaven if we simply, repent and ask Christ into our heart to be our Lord and Saviour. Once we do that God can pour out His blessings upon us and from then on it's easy for us to say, "Not Ourselves, but Christ!"

The simple truth is young people today need Jesus to guide them and help them through the wickedness being pushed on them daily through every type of media. We pray we can take this week and help those who are lost come to know Him and then those who are saved make the decision to follow Him with every facet of their lives. Because it's not about us, it's all about Him!
